

Scan the QR code with your QR reader APP on your smartphone.

For Android scan the QR code with QR Droid.

Or you can type in the link bellow.

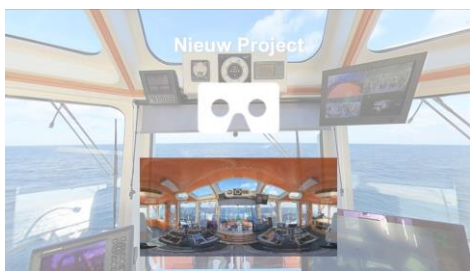

<http://www.fotorondleiding.nl/Arktur-VR/Arktur-VR.html>

Tap on the icon VR cardboard in the upper right corner to continue.

Be aware, when you open the link on your PC, Laptop or Tablet the icon of the VR Cardboard will not show

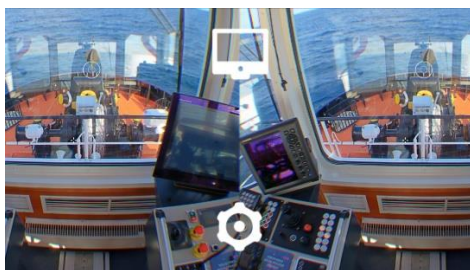

You will see the Interactive Virtual Tour (IVT) and no split screen.

Tap on the icon VR Cardboard, in the center.

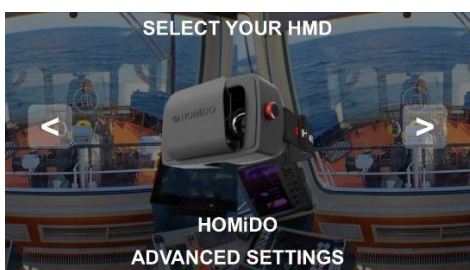

You will now see the splitscreen.

To be sure if you have chosen the right HMD (=Head-Mounted Display) tap on the small photo in the screen and select the HMD you are using with the arrows.

When you tap on the icon computer screen (Top), the splitscreen disappears and you can see the IVT as if it is on your PC.

When you tap on the settings icon (down) you can select your HMD.

With the arrows left or right you select your HMD.

Insert your smartphone in the selected HMD. To get a full screen on your smartphone you hold the smartphone vertically and then horizontally.

Navigation :

The pulsating circles in the photo indicates that you can view a new 360 photo. (red arrows)

Go with the + sign (blue arrows) to the pulsating circles, keep the + sign in the pulsating circle and wait till the next 360 photo shows.
